EFTA
EQUIPMENT LOANS

Open Vacancy: IT Infrastructure Specialist Consultant

Branch: Dar Es Salaam - HQ

Department: Operations

Position: IT Infrastructure Specialist Consultant

Deadline: 10th May 2024.

Company Details:

EFTA is a reputable award-winning equipment finance company based in Tanzania with numerous branches across the country, dedicated to helping SMEs and tamers grow.

Purpose of role:

The applicant is required to provide technical services in the management, operations and maintenance of the computer centre hardware, software, systems, and related infrastructure of the organization.

Job Description

Day to day responsibilities:

- Design, implement, and manage company's IT infrastructure, including servers, networks, storage, and virtual environment.
- Monitor system performance and troubleshoot any technical issues that arise, ensuring minimal downtime and maximum efficiency.
- Collaborate with vendors and other IT staff to identify infrastructure needs and propose innovative solutions to enhance operations.
- Conduct regular system assessments and security audits to ensure compliance with industry standards and data protection protocols.
- Ensure enterprise scalability and performance for Servers, storage and backup environments through proactive capacity planning, performance control and configuration adjustment.
- Being responsible in identifying and recommending appropriate changes to infrastructure to improve reliability, performance, capacity, availability, and security.
- Stay up to date with industry trends and technological advancements to provide cutting-edge solutions and drive continuous improvement.

Candidate Specification

- Bachelor's degree in information & communication technology or a related field.
- Minimum of 5 years of experience working with IT systems.
